

**LINTJER + HAYWOOD
ARCHITECTS P.C.**

2111 E. Virginia Avenue

Denver, Colorado 80209

Bruce R. Lintjer, Principal

Professional Profile: A founding Principal of Lintjer + Haywood Architects, Bruce has been involved in the design and construction process since 1979, and in private practice since 1999 (Lintjer Architects). During that time, his experience has included work as a Principal Architect, Design Architect, and Architect Project Manager, with particular emphasis on the design and construction of all types of multiuse water and wastewater facilities including **administration buildings with analytical laboratories**, pump stations and chemical storage facilities. Mr. Lintjer has extensive experience with buildings containing multiple uses, with a successful track record of integrating office, conference, laboratory, employee space, maintenance shops with vehicle bays, and industrial functions into a unified design package. **His design process has been characterized as recognizing the “functional” and “utility” nature of treatment facilities while creating significant architectural designs that compliment the natural features of building sites and their surroundings.**

Education: Bachelor of Architecture - Ball State University 1979
Bachelor of Science, Environmental Design - Ball State University 1978
Evan Terry Associates: ADA Facilities Compliance Program, 1991
Ball State University Scholarship 1974, 1975

Licensing: Registered Architect - State of Colorado
